

Remarks/Arguments:

The parent PCT application includes claims 1-24. This preliminary amendment amends claims 15 and 19 to remove an extraneous clause, and amends claims 17 and 21 to provide proper antecedent basis to existing terms. Claims 25-45 are also added, of which claim 25 and 44-45 represent elements of claim 1 drawn to a transceiver; claims 26-33 represent elements of claims 2, 4, 7, 3 and 13-16 respectively, drawn to a transceiver; claims 34-38 represent elements of claims 17 and 20-23 respectively, drawn to a transceiver; and claims 39-43 represent elements of claims 1, 13, 16-17 and 21 respectively, drawn to a computer program.

Further, this preliminary amendment adds a priority claim paragraph to recite priority already claimed in the parent PCT application, and adds the abstract of the parent PCT application as a separate page. No new matter is added.

Examination on the merits is respectfully requested.

Respectfully submitted:

Gerald J. Stanton
